

## **ELEVATOR VARIANCE APPLICATION INFORMATION**

- \$56.90 Variance Request Processing Fee per conveyance for a variance not requiring a site visit. (All supporting documentation must accompany the request.)
- \$171.20 Variance Request Processing Fee per conveyance for a variance that requires a site visit. An additional fee may be invoiced after the site visit if the visit takes longer than 2 hours. (There is an additional fee of \$56.90 per hour for each hour in addition to 2 hours.)
- A check for the appropriate amount must accompany your request.
- All fees must be paid in full prior to the issuance of the variance.

### **PLEASE ALLOW A MINIMUM OF TWO WEEKS FOR PROCESSING**

#### **What is a variance?**

A variance is an allowable deviation from specific requirements of the Washington Administrative Code (WAC) 296-96 and other codes that have been adopted by the elevator department where the proposed alternate methods will maintain equivalent safety.

#### **What won't a variance do?**

A variance will not avoid compliance with the intention of the section or rule. A variance is not a way to recover from an installation or design error. A variance will not be granted if the alternate method would reduce the safety of the installation or equipment.

#### **What does a variance cover?**

If the variance is granted, it shall be limited to the particular case(s) covered in the application and will NOT be applicable to future installations or equipment (i.e.: the variance shall be job specific/site specific.) The variance may be revoked for cause.

#### **Who may apply for a variance?**

Only the property owner or elevator company, those responsible for compliance with RCW 70.87, may apply for a variance.

## Who grants a variance?

A variance is granted only by the Chief Elevator Inspector upon request, in writing, under the authority of RCW 70.87.110 which states in part: *"the department shall not allow modification or waiver unless equivalent or safer construction is secured in other ways."*

<b>The variance must be posted in the elevator machine room for the life of the unit.</b>
